BRAIN TRUST

A science interactive session called “Brain Trust” between teachers and science students will be held during 5th & 6th periods on Wednesday 29 November 2017. **ALL** students of classes 8&9 shall attend the session. Teachers not engaged may please attend.

It is meant for students to seek information beyond the text book through questions.
List of questions are as follows:

1. Despite being mammals, why can't whales breathe on land? RM
2. How is a chameleon able to camouflage? DG
3. How does a satellite of GPS work? MB
4. How tube light produce more light using less energy than filament bulb? KB
5. How boomerangs come back? DS
6. Why does the earth revolves around the sun and it does not fall on it? LD
7. Can we hold fire without burning our hands? SS

Teachers whose names figure in front of the questions will answer the same in the above sequence.
